### Our Yeshua (Immanuel)

The purpose of this website/does it belong to a community  
This is the first bulletin in English. Reason enough to introduce ourselves.

Website Our Yeshua (Immanuel) came to existence by our desire to share our thoughts, meditations and studies, without the wishes or desires to be some kind of teachers/know-it-alls. This is also the purpose of this website, because we too had some difficulties to find some

We do not represent a Messianic community, nor is this website a part of a Hebrew/Jewish website. It is a kind of a blog with which we share our thoughts and studies in an article.

In our studies we are focused to the Hebrew roots. This may sound like “cloud number 9” or something, or maybe even legalistic, but in fact it is nothing

but following the paths Abraham, Isaac and Jacob also followed.

We are followers of Rabbi, HaMashiach Yehoshua [Yeshua]. Our articles are focused and substantiated on the Torah and Bible.

If you would like to know more about us, please visit our profile on the website, by following the next link: [About us](#).

### Updates

What is new on the website

The English version of the website is only a few months online. During this time, three articles are uploaded:

1. [Three possible birthdates of our Messiah](#)

Among believers it is the most debated topic. Why, because the exact date isn't mentioned in the Scriptures. I know three possible birthdates of our Messiah. If it were important for us to know, it would be in

the Bible. So, not for the sake of importance but to our curiosity, let's check these three possibilities.

2. [Matthew 28:19,20<sup>a</sup> – A commandment, given to every Christian?](#)

3. [Are we allowed to pronounce the Name of our God?](#)

Over and over I've been told it is strictly forbidden to pronounce the Name of our God. However, I can't find it in

the Bible where it says I can't, and that only the high priest was allowed one time a year – and only in the Holy of Holies – to pronounce the Name of our God.

In the near future, more articles will be added. This will be mentioned in a bulletin, but also by checking the page “[articles](#)” you will know if a new article is uploaded.
